

Why a Napoleon® patio heater?

- Perfect for around the pool and patio
- Ideal for cafés and outdoor restaurants
- Fits into almost any space
- Residential and commercial applications

Napoleon® patio heaters allow you to extend outdoor activities during the fall and kick off summer several weeks early to enjoy an evening barbecue, early morning coffee, or any other entertaining event. Move the heater to wherever you want the warmth! Napoleon® patio heaters generate infrared radiant heat rays which heat objects rather than the surrounding air, keeping you cozy and warm by the pool, spa or on your deck long after the sun goes down. Infrared heat provides efficient, clean burning performance and uses less fuel while providing ultimate comfort.

Why fight with extension cords, Napoleon's patio heaters operate using a concealed propane cylinder, requiring no electricity; natural gas models are also available to further increase fuel efficiency. The control panels are conveniently placed, and safely out of reach for children.

Napoleon® patio heaters are constructed of stainless steel or cast aluminum, featuring an easy access door on propane models and are designed for permanent outside storage.

The visual appeal and radiant warmth of these modern, long life patio heaters are a welcome feature at popular hotels and resorts, fine restaurants and cafés, golf clubs, spas and ski lodges as well as residential patios. These professional, commercial or lifestyle quality heaters are available for your own personal pleasure in the privacy of your own yard. Napoleon® patio heaters will complement any backyard, patio, or pool space. Go ahead, extend your day in the outdoors!

Dare to compare!
Unlike most models available on the market which utilize carbon steel beneath pre-coated finishes, Napoleon's copper and gun metal finishes are pre-coated over 304 stainless steel eliminating the possibility of rust.

Standard Features

- Adjustable heat control
- Wind resistant design
- Directs heat downwards
- Heats up to a 25' diameter
- Stainless steel emitter grids for optimal performance
- Concealed propane tank on LP models
- Aluminum reflector for direct heat

Features & Benefits

High output, fuel efficient burner

Easy to use controls

Durable, long lasting cast aluminum valve

Easy roll wheels on LP model for location flexibility

Hold down clamps for extra stability on natural gas models

Commercial Series

Double Grate Conical Burner provides low energy consumption with high heat output

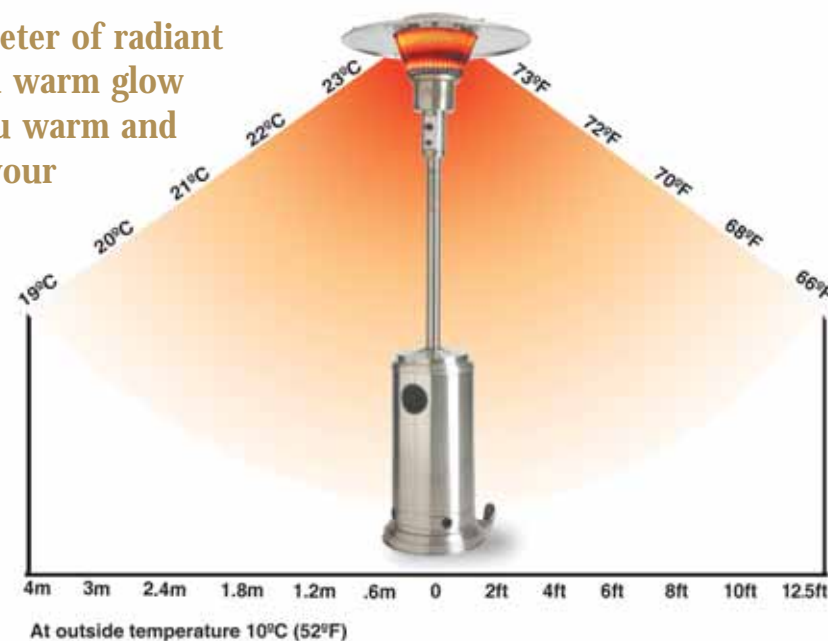

Heavy Duty Outside Perforated Stainless Steel Screen generates infrared rays directing heat where it's needed

Inside "Insulator" Emitter maintains high temperature

Perforated Stainless Steel Screen encases valve for safety and provides cooling and secondary air for combustion

High Output Cast Aluminum Valve allows for maximum 45,000 BTU's, exceeding industry standards

A 25' diameter of radiant heat casts a warm glow keeping you warm and extending your outdoor enjoyment

Dual Cone Shape Emitter directs heat downward allowing for more efficient heat

Heavy Duty Stainless Steel Burner

Direct Electronic Ignition to main burner with 100% SAFEGUARD™ shut off

Adjustable Heat Control allows for temperature modulation when less heat is required

Easy Electronic Push Button Start

Stainless Steel Patio Heaters

- 304 Stainless steel
- Adjustable heat output
- Up to 45,000 BTU's
- Direct electronic ignition
- High-output cast aluminum valve
- Dual conical burner
- Wheels (LP Model) for moving wherever you want it
- Available in LP or natural gas

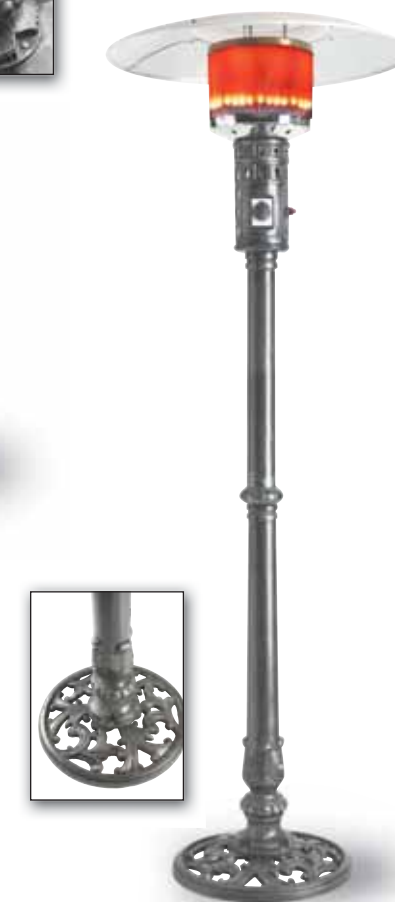

Stainless Steel LP Model: PTH2650SS

Natural Gas Model: PTH2650SSN

Cast Aluminum LP Model: PTHC38PK

Cast Aluminum Natural Gas Model: PTHC38NK

Copper Finish on 304 Stainless Steel LP Model: PTH38PCP

Gun Metal Finish on 304 Stainless Steel LP Model: PTH38PGM

304 Stainless Steel LP Model: PTH38PSS

Cast Aluminum Patio Heaters

- Cast aluminum body with rich pewter look
- Adjustable heat output
- Up to 40,000 BTU's
- Decorative base
- Electronic ignition
- Available in LP or natural gas

Table Top Patio Heater

This sleek designed table-top patio heater is both portable and easy to use. With 10,000 BTU's you can be sure you and your guests will be able to enjoy an extended time outdoors. Uses 1lb propane bottle or optional 4' hose to a 20lb tank.

PTH10PSS

Stainless Steel Patio Heaters

- Three choices available:
 - 304 Stainless steel
 - 304 Stainless steel with copper finish
 - 304 Stainless steel with gun metal finish
- Adjustable heat output
- Up to 40,000 BTU's
- Completely self contained, bullet style
- Optional post mount table
- Electronic ignition
- Available in LP only

Features & Benefits

CONTROL PANEL
• adjustable heat up to 40,000 BTU's

BURNER
• durable, high efficiency burner

OPTIONAL POST MOUNT TABLE (bullet model only)
• expands your entertainment possibilities
