SIERRA FLAME
GAS FIREPLACES

SIERRA FLAME

THE LYON

The Lyon 48" brings the see thru linear gas fireplace a wonderful new look! Lyon gives you no screens, safe to touch glass, and an incredibly mesmerizing flame, you will love the Lyon.

You can connect any room in your house with this fireplace, creating a flow in your home from setting to setting.

KEY FEATURES

- Double Glass & Screen Free
- 4 Sided See Through Unit – Full 360° View
- Available Size – 48"
- Up to 32,500 BTU on high & 21,000 BTU on low
- All Wood Framing
- No Concrete Board Required
- Able to Finish with Combustible Around the Fireplace

Glass Viewing Area:
Lyon 48 NG – 15.34" H x 45.16" W

Side View Area Dimensions:
Lyon 48 NG – 15.34" H x 13.40" W

No Limitations

- The Technology**
- All Contained within the fireplace
 - No Gaps
 - No Louvres
 - No Heat Dump
 - Wood and Drywall – Combustibles Okay
 - Quick and Simple Installation. No technician required for cleaning inside the glass

No Gap
With a lot of fireplaces, they need to create an escape for the heat to vent out. To do this they leave a gap at the top of the fireplace wall to create a crown to hide the opening. A gap is not necessary.

IDEAL APPLICATIONS

- New builds & Renovations
- Restaurants
- Commercial Spaces
- Condominiums

No Intake or Exhaust Louvres
Your wall will not have any intake or exhaust louvres to break up the look.

No Heat Dump
There are no vents required behind the wall of the fireplace to dump the built up heat.

Combustibles Okay
Everything is contained within the firebox. Able to finish with combustibles around the fireplace. No special concrete board or metal studs

See Heat Shield information on page 17.

SIERRA FLAME SERIES | GAS FIREPLACES

FIRE GLASS

Our decorative fire glass media is a beautiful addition to your fireplace. Turn your fireplace into a expressive work of art by simply adding our decorative fire glass media. Our fire glass adds a distinctly modern feel to your gas fireplace - mix colors and textures for a unique appearance.

Our decorative fire glass is tempered and will not melt or degrade, some discoloration is normal on glass that is placed directly on the flame. Always wear protective gloves when handling fire glass media.

One 5lb container of media will cover 1 square foot.

Note: Sierra flame gas fireplace units can be outfitted with our high quality, realistic looking log sets.

You will find there are more log set pieces in the box than can be used. Every precaution has been taken to ensure the log sets are not damaged in transit - but in the event that there is some breakage there will be extra pieces to use in their place.

Please refer to the set up guide for placement of your log set pieces for proper function and the most realistic display.
