# Silhouette™ Ultra Low Profile Direct Vent Terminal

A cutting edge innovation from Napoleon. No power vent required.

Now available for use on most 4/7" and 5/8" Napoleon Gas Fireplaces!

## Competitive Advantages:

- Pleasing design - no sacrifice to curb appeal
- Ultra low profile. **Protrusion is less than half that of the industry standard!**
- Designed for proper fireplace operation even under extreme weather conditions
- Installs in standard 2" x 4" and 2" x 6" exterior walls
- Allows for greater design flexibility as there is no need to hide the vent from view
- Works with brick and vinyl applications (a stand-off may be required)

Order this display sticker for free when you order your Silhouette™ Terminal for display in your showroom!  
Code: ADSI-ST

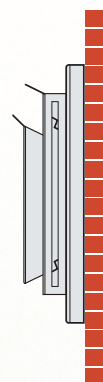

The Silhouette™ terminal can be painted with an approved high temperature exterior paint for even greater design flexibility and appeal.
